# VALVE AUTOMATION (SOLVING OUR CUSTOMERS VALVE AUTOMATION CHALLENGES)

- **For the last one decade VENUS satisfies the full spectrum of valve automation requirements of our customers for Emergency Shutdown (ESD), On/Off, Control, and specialty applications. Engineered, crafted, and tested in-house, the Valves, actuators, controls, and accessories are standardized to allow common components to be used on different assemblies — thus saving customers money and space.**
- **Whether the customer require pneumatic, hydraulic, electric, or gas-hydraulic valve automation products and services, we have the solution. We have tie-up with leading Actuator and accessory manufacturers like EL-O-MATIC, AUMA, ROTORK, SDTORK. We have a state of the art facility to assemble and fix the actuators and assemblies on the Valve as per customers specific requirement. So venus can solve automation challenges with industry-proven brands - like EL-O-Matic™, SDTORK, ROTORK, AUMA.**
